

# Full Service Schools of Jacksonville

Children in Northeast Florida arrive at school everyday unprepared to learn. Beset by impoverished home environments, unsafe neighborhoods, or poor health conditions, children face numerous barriers to achieving academic success. These students are unable to grow into productive and self-sustaining adults, ultimately hurting the well-being of the community as a whole.

**Full Service Schools of Jacksonville** is a neighborhood-governed collaboration designed to remove barriers to academic success.

Led by United Way, these school-based neighborhood centers bring together community resources, neighbors and schools to promote the health and well-being of students, their families, and neighborhood residents.

Each Full Service School site offers different services depending on varying needs of the neighborhoods. Services provided include:

- case management
- individual and family counseling
- mentoring
- homework assistance
- parenting classes
- after school activities
- truancy support

**Medical services** are also offered through the St. Vincent's Ronald McDonald Care Mobile, a mobile health facility that provides services for underserved and uninsured students. The Care Mobile visits a different Full Service School each day.

*“Full Service Schools is a far reaching program that touches lives beyond basic needs. While it promotes academic success and counseling, it also enriches the relationship between families, school and community.”*

— Susan Kummernes  
Guidance Counselor at Don Brewer Elementary School
