

Duval County

Helping Students Achieve

▲ Frequent misbehavior at school was earning Alfonso a reputation as a troublemaker. But when a United Way agency matched him with Andy, Alfonso's outlook began to improve. Andy and Alfonso meet faithfully for an hour each week to play interactive games, tackle tough school assignments, or just hang out. They also work on anger management strategies and study skills. With Andy's help, Alfonso has a brighter future.

United Way is addressing the root causes of issues in Northeast Florida.

ISSUE:

- In Duval County, 34% of 9th graders do not graduate high school.
- This rate is twice the average for the state of Florida.
- A study published by the Florida Times-Union found that more than 60% of accused murderers did not finish high school and one out of seven failed to reach 9th grade.

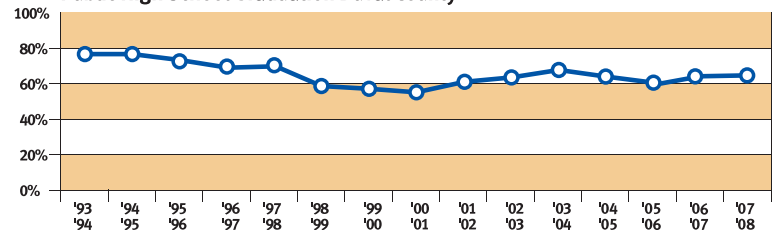

SOLUTION:

- Led by United Way, Full Service Schools brings together community resources, neighbors and schools to promote the health and well-being of students, their families, and neighborhood residents.
- Achievers For Life, a multi-tiered strategy to address the complex problem of dropping out of school, was implemented in Arlington in October 2007 and expanded to Northwestern and Matthew Gilbert middle schools in the 2008-2009 school year.

IMPACT:

- More than 29,000 people were served through Full Service Schools last year.
- Serious student conduct violations have decreased 50% for students served by Full Service Schools.
- 339 families were served through Achievers For Life last year. Students participating from the beginning of the year increased their GPAs from an average of 2.1 to 2.4.
